Remark

【About the symbols in the chart】

(Exportable goods)

◎: Exportable without the plant quarantine certificate (see ✱1).

Q: Exportable if the plant quarantine certificate is attached.

P: 「Import License (see ✱2)」 issued by the export destination country is required.

☆: Only goods that fulfill the special quarantine conditions based on the agreement between the two countries can be exported.
(✱1: the plant quarantine certificate will be issued upon passing the export inspection.)
(✱2 the import license will be issued by the export destination country.)

(Not exportable goods, or by unknown reason)

△: Unable to export because the export destination country does not specify the quarantine conditions, or unknown reason.

×: The export destination country generally prohibits the importation.

【Note】

✱1 Products in Shikoku, Kyushu and Nansei islands cannot be exported

✱2 Commodities produced in Yonaguni islands cannot be exported

✱3 Products in Nansei islands (located in northern latitude of 30 degrees), Ogasawara islands and Daito islands cannot be exported

✱4 For Cyprus, fruit will be subject to the plantation inspection for the presence of leaves and for phyllotera, and to disinfection

✱5 In case of the import taken place between 16 April and 30 September, the plant quarantine certificate is required

✱6 Products in Amami islands, Ogasawara islands, Ryukyu islands, Tokara islands and Volcano islands cannot be exported

✱7 For France (Brittany region), Ireland, Portugal (Acores islands), Finland and the United Kingdom (Northern Ireland), the export inspection is required

✱8 The plantation inspection and disinfection are required

✱9 The plantation inspection is required

✱10 Disinfection is required

✱11 Products in Nansei islands cannot be exported

✱12 May not be subject to the plant quarantine (the import license and the plant quarantine certificate are not required)

✱13 One person can carry no more than one kilogram.
In case of the import of a variety of grains or beans, the total weight must not be greater than one kilogram

※Precautions and method for utilization

1.Terms of use

The quarantine conditions published in the simplified chart provide the accurate information. However, due to changes in the quarantine rules of source foreign countries, they can differ from the actual fact in some cases. Prior to export, it is advisable to check for the latest acceptance condition of the export destination country.
Additionally, since the quarantine conditions are the requirement for the plant quarantine of each countries, even the simplified chart indicates exportable, it can sometimes be restricted to import by other country's specific regulations such as CITES (Convention on International Trade in Endangered Species of Wild Fauna and Flora) .

2.About the import license system of foreign countries

About the process and referral regarding the import license of the export destination country, please check with the agricultural representative authority or the plant quarantine authority of the export destination country through a local agency, or submit an inquiry to the embassy of the subject country in Japan.
